Section Title(S)

THE HOMONYMOUS METHOD • Terms Applied to Affines

The terms have already been given for married couples among lineal kin (great-grandparents, grandparents, parents) and among the primary affines, and need not be repeated. It remains to give the terms that are used for the spouses of uncles, aunts, nephews, nieces, cousins, grandchildren.

601
Kinship Terminology

These terms are given in Table 13.

THE HOMONYMOUS METHOD

Before proceeding with a description of the application of kin terms by the homonymous method, several points about the naming of children should be made.

551
Personal Names

553
Naming

1. It is the duty and the right of fathers to name their sons and daughters.

551
Personal Names

553
Naming

2. Children are named at birth. Although a father may change his  224 child's name if he wishes, this is rarely done. Most people keep the same name throughout their lives.
